COMMERCE CONTENT

Products stay native to Shopify

Product titles, photography, variants, prices, and inventory are edited under Products. Soft Hours-specific details appear as organized product fields.

FIELD	SHOPIFY KEY	STOREFRONT USE
Short description	custom.short_description	Concise description beside purchase controls
Details	custom.details	Approved construction and product facts
Fit notes	custom.fit_notes	Fit guidance
Size guide	custom.size_guide	Garment measurements or size notes
Model information	custom.model_information	Model measurements and size worn
Fabric composition	custom.fabric_composition	Approved composition only
Care instructions	custom.care_instructions	Approved care only
Maker story	custom.maker_story	Approved production context
Dispatch estimate	custom.dispatch_estimate	Approved dispatch or arrival timing
Delivery + returns	custom.delivery_returns_summary	Short approved policy summary
Related products	custom.related_products	Hand-selected complementary pieces

A SIMPLE RULE If a product fact or customer promise is not final, leave its field blank. Blank fields stay hidden rather than presenting unresolved information as confirmed.

WORKFLOW

Seven steps for a safe update

01	Open Customize on the unpublished ecommerce theme.
02	Choose Home, About, Collection, Product, Journal, FAQ, Contact, or Size Guide from the page selector.
03	Open the named section in the left sidebar.
04	Replace copy or select photography from Shopify's media library.
05	Add a clear image description whenever photography changes.
06	Review both desktop and mobile previews.
07	Select Save. The update remains in the unpublished theme until launch.

EDITORIAL GUARDRAILS

Clear where it counts

EXPRESSIVE Brand and story sections can use Marion's emotional, distinctive voice. This is where Soft Hours should feel singular.	CONVENTIONAL Purchase controls remain immediately clear: Shop, Size, Size Guide, Add to Cart, Cart, Checkout, Delivery & Returns, Fabric & Care, and Notify me.
BEFORE PUBLISHING Confirm composition, care, maker, dispatch, shipping, taxes, duties, customs, and return promises. Product photography belongs in Products; homepage and About photography belongs in the Theme Editor.	IMAGE PRACTICE Use a dedicated mobile crop whenever the desktop composition becomes unclear at narrow widths. Always include an image description.

ACCESS

What Marion needs

A Shopify owner or staff account with access to Themes, Products, Content, Files, Navigation, and Policies. No second CMS or separate client login is required.
